<http://www.verviers.be/>

Louisa Kara is the project manager of N Power in Verviers and is here to help and coordinate the inhabitants of the Prés Javais district in reviving their neighbourhoods and its two main parks: Parc Marie-Louise and Plaine Lentz. In line with other projects in the area (Barzaddict, new playground, urbanization by AUPA Architecture), we want to give Prés Javais the structure it deserves to be able to bring its inhabitants together in various projects (equipment in the parks, project of a youth center, accessibility of the parks, etc.)
